#### **COMMENTS**

## Name and legal status

The Pictet Group's accounts comprise financial statements of all companies in which the Partners of the Pictet Group owned, either directly or indirectly, over 50% of the capital or voting rights as at 30 June 2018.

The Group's scope of consolidation therefore encompasses a number of corporate entities that are either combined between themselves or consolidated into one or more of the combined entities. The combination link stems from the fact these entities come under the common management control of the Partners of Pictet & Cie Group SCA.

## Accounting principles

The Group's consolidated financial statements have been drawn up in accordance with the "settlement date" principle, provisions of the Swiss Federal Law on Banks and Savings Banks, its relevant Implementing Ordinance, and the guidelines for accounting principles to be applied in the banking sector as stipulated by the Swiss Financial Market Supervisory Authority (FINMA) Circular 2015/1.

## Consolidation

Entities either directly or indirectly controlled by the Group or over which the Group exercises a dominant influence are consolidated according to the full consolidation method. This means assets, liabilities, off-balance-sheet transactions, income and costs of fully consolidated companies are included in the Group's financial statements. The material business relations between consolidated companies are eliminated from assets, liabilities, costs and income. Net assets of Group companies are consolidated according to the purchase method. In the case of combined entities, the combination is an amalgamation of the accounts, performed in keeping with the same rules as described above.

### **Balance** sheet

The equity at 30 June 2018 does not yet account for the dividends which are generally distributed in the second half of the year.
